

IEES

International Entrepreneurship Education Summit

IEES is an **interactive conference** that offers a platform for the exchange of innovative ideas and established practices for fostering innovation and entrepreneurship.

It is aimed at those who promote entrepreneurship and innovation in organizations, at universities and schools and are looking for new methods, tools, formats and workshops in the field of entrepreneurship education.

There will be parallel tracks in three formats:

- **Hands-on (50 mins.)**
In this interactive teaching and learning format, the participants can take part in a practical unit, so they can subsequently use the learned content for their own teachings and workshops.
- **Best practice (18 mins. + 7 mins. Q&A)**
Includes the presentation of a teaching format, a program or a method in the context of teaching and facilitating innovation and entrepreneurship.
- **Science pitch (18 mins. + 7 mins. Q&A)**
Creating the transfer between research and practice with insights from studies, research projects on the topics of entrepreneurship education and innovation and their derivations with recommendations for practice.
